

I'm writing here for my K-LOVE radio station. My family loves K-LOVE!! We don't want to see it replaced with some local station that won't have family friendly music. It's so nice to have a radio station that the whole family can agree too!! K-LOVE gives me inspiration every morning. It gives me the positive energy I need to start my day, my week, my month. If K-LOVE were to be displaced, there'd be a lot of sad and lonely people. I'm not talking about Christians, but I'm talking about those people out there who happen to tune in at the lowest, saddest part of their lives. K-LOVE has a way of speaking to you when you need it most. Finally, K-LOVE is all about providing service in the public interest. In fact, that's about all they do. Who doesn't want to hear positive words spoken about them everyday? Who doesn't want to hear positive news from a credible source? Who doesn't like good music? K-LOVE only serves the public. They encourage citizens to support local shelters, churches, and each other. Please don't do away with FM translators!! There may not be a local group of "deejays" but I feel like they're my family too.
